

## WEST Search History for Application 10581116

Creation Date: 2010092421:39

### Prior Art Searches

Query	DB	Op.	Plur.	Thes.	Date
composite same density same inorganic same plastic	USPT	ADJ	YES		09-24-2010
composite same density same inorganic same plastic	PGPB	ADJ	YES		09-24-2010
composite same density same inorganic same plastic same particles	PGPB	ADJ	YES		09-24-2010
composite same density same inorganic same plastic same particles	USPT	ADJ	YES		09-24-2010
composite same density same inorganic same plastic same particles same surface area	USPT	ADJ	YES		09-24-2010
composite same density same inorganic same plastic same particles and surface area	USPT	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area	USPT	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area	PGPB	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity	PGPB	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size	PGPB	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size	USPT	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size particle size	USPT	ADJ	YES		09-24-2010
composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size and particle size	USPT	ADJ	YES		09-24-2010

<b>composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size and particle size</b>	PGPB	ADJ	YES		09-24-2010
<b>composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size and particle size and specific density</b>	PGPB	ADJ	YES		09-24-2010
<b>composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size and particle size and specific density</b>	USPT	ADJ	YES		09-24-2010
<b>composite and density and inorganic same (grains or particles) and plastic same particles and surface area and porosity and pore size and particle size and specific density</b>	USOC, EPAB, JPAB, DWPI, TDBD	ADJ	YES		09-24-2010
<b>composite same specific density</b>	USPT	ADJ	YES		09-24-2010
<b>composite same specific density and non-meetallic inorganic material</b>	USPT	ADJ	YES		09-24-2010
<b>composite same specific density and non-meetallic inorganic material</b>	PGPB	ADJ	YES		09-24-2010
<b>composite same specific density and non-metallic inorganic material</b>	PGPB	ADJ	YES		09-24-2010
<b>composite same specific density and non-metallic inorganic material</b>	USPT	ADJ	YES		09-24-2010
